HANDLING SOLUTIONS

MINING INDUSTRY **BULK** **MATERIAL** HANDLING SOLUTIONS

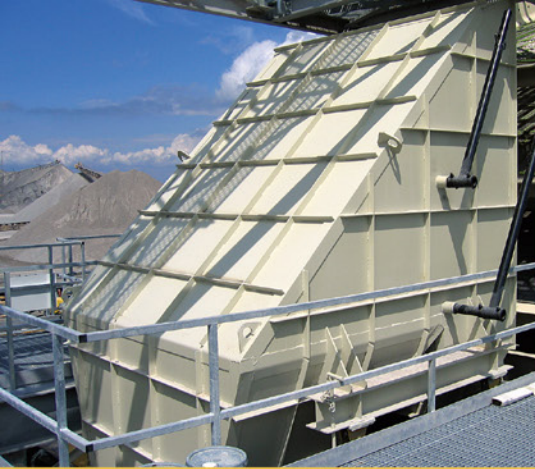

TS Manufacturing has been designing, manufacturing and installing quality bulk material handling systems for mining, aggregate, quarry, cement and many other industries for over 40 years.

Our experienced engineering department utilizes the latest in CAD design software and is capable of working in 2D or 3D with nearly any file format. Our Project Managers have experience working directly with customers as well as

working with Consulting Engineering firms. We have equipment installed on 6 continents.

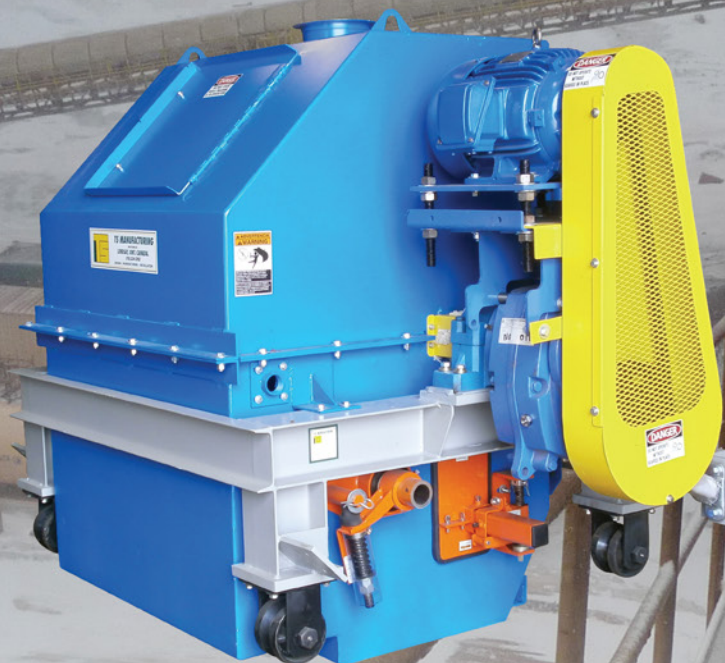

Our Systems Application Personnel are ready to quote on your application using our standard high quality components or work to your system and component specifications, to reduce your maintenance, inventory and operational costs. We will design and manufacture the system and deliver it to your site, on time and on budget, anywhere in the world.
