

Industrial Production Worker

Company Overview

TS Manufacturing a local family-owned manufacturer of Automated Machinery for the Sawmill & Material Handling sector, based in the scenic City of Kawartha Lakes. As an industry leading manufacturer, TS Manufacturing has continually improved its facilities and infrastructure leading to the completion of a multi-million-dollar facility and equipment expansion culminating in the expansion of its 70,000 square foot manufacturing facility. Currently Celebrating 49 years in business with an experienced multi-generational team; TS Manufacturing offers a rural based lifestyle, while working in a global reaching, pandemic essential business; offering competitive pay and benefits. **We are a World Leader in Innovation for the lumber processing industry.** We design and manufacture in house and provide anything from a small single machine center up to multi-million dollar turn-key installations. Our product line is rather vast, and includes all sorts of multi-axis automated machines, including, troughed idler conveyors, Lumber Board Edger's, Headrig Saws, Stacking Lines, Lumber Trimming Lines, Sorting Systems, and the list goes on. With modern technology, and a strong global customer base we require people who are willing to take advantage of the opportunities to improve our processes and customer experiences throughout the organization including the current opportunities below.

Job Description

The successful candidate will be assigned a diverse variety of tasks to support our rapidly growing manufacturing operation. We are looking for candidates with experience in any combination of the tasks required to cut, fabricate, weld, assemble, package, organize, load/unload and generally support industrial equipment manufacturing.

Key Duties Include:

- Fabricate metal components using a shear, bandsaw, drill press
- Move material both manually and using cranes/forklift
- Prep parts for next process (clean, de-burr, label, mask for painting)
- Support shipping of product (packaging, banding, loading trucks)
- Set up and operate hand and power tools (grinder, drill)
- Work safely in accordance with company safety policies and procedures

Desired Skills & Experience:

- Proven experience measuring and cutting metal
- Ability to work independently on a set of work instructions
- Comfortable with heavy, physically demanding jobs
- Knowledge of relevant safety standards and willingness to use personal protective equipment
- Positive attitude and able to work in teams
- Attention to detail and strong work ethic
- Able to work after hours and weekends when required
- Experience with forklift is required, experience with cranes is an asset
- Experience with drilling, forming, plasma, torch welding is an asset

Job Type: Full-time
