

Millwright

Company Overview

TS Manufacturing, a local family-owned manufacturer of Automated Machinery for the Sawmill & Material Handling sector, based in the scenic City of Kawartha Lakes. As an industry leading manufacturer, TS Manufacturing has continually improved its facilities and infrastructure leading to the completion of a multi-million dollar facility and equipment expansion culminating in the expansion of its 70,000 square foot manufacturing facility. With modern technology, and a strong global customer base we require people who are willing to take advantage of the opportunities to improve our processes and customer experiences throughout the organization including Millwrights. **We are a World Leader in innovation for the lumber processing industry.** Currently Celebrating 49 years in business with an experienced multi-generational team; TS Manufacturing offers a rural based lifestyle, while working in a global reaching, pandemic essential business; offering competitive pay and benefits.

Job Description

The successful candidate will be responsible for assembling our custom designed industrial equipment to required specifications. This position includes international travel to customer sites to install, commission new equipment and troubleshoot existing equipment on site. You will interact and collaborate with all departments, including our in house engineering and machine shop in order to design and build our custom machinery.

Key Duties Include*

- Precision alignment of rotating equipment
- Assembly of belt, chain, and vibrating conveyors
- Integration of mechanical, hydraulic, pneumatic, and electrically driven equipment
- Reviewing detailed drawings to perform precision installation
- Troubleshooting and adjustment pre-shipment and at customer locations
- Work safely in accordance with company safety policies and procedures
- Evaluating equipment performance and providing proposals for improvement
- Support Engineering using your mechanical experience to resolve customer issues
- Participate in Pre/Post-Design reviews.

Desired Skills & Experience

- Completion of 3rd year of apprenticeship
- Preference given to those experienced in machine building and installation
- Knowledge of sawmill machinery and controls considered an asset
- Solid knowledge of Hydraulic and Pneumatic components and devices.
- Excellent communication, troubleshooting and problem solving and decision making skills
- Ability to work extra hours to ensure a successful project when required
- Knowledge of relevant safety standards and willingness to use personal protective equipment
- Self-motivated, driven individual who is organized, demonstrates good problem-solving skills and can manage multiple projects simultaneously.

- Deftness and attention to detail
- Willing and able to travel internationally. Must have or able to obtain passport.

Interested applicants can submit their resume, in absolute confidence, to Careers@tsman.com.

What we Offer

Working with TS Manufacturing is a unique chance to take part in a growing company with projects all over the world. Our family oriented company ensures that you are not just a number, but a part of that family, where you are a part of an industry leading team of people all after a common goal. To be the best.

- Extensive earning opportunities for service and install work through overtime and hourly bonus for customer site based work
- Well lit and newly expanded manufacturing shop with in-house Engineering Department, and large Assembly shop recently upgraded to handle larger industrial equipment
- Modern CNC based plasma cutting, press brake, saw, lathe and milling capability on site to support Assembly processes
- Health and dental benefits
- Company pension plan
- Overtime after 40 hours
- Excellent opportunities for new skills and experience with our industrial machinery as we design, manufacture, install, maintain and upgrade our own equipment throughout its life cycle to customer requirements

Locale
