RUGGED, HEAVY-DUTY EQUIPMENT FOR MINING PROJECTS ALL OVER THE GLOBE.

40+ yrs
TRUSTED EXPERIENCE

BULK MATERIAL HANDLING SYSTEMS FOR THE MINING INDUSTRY.

Truss Conveyors

Each conveyor is custom engineered and designed to suit your application. TS will engineer, detail and certify our truss conveyor drawings to meet your local standards.

Gallery Conveying Systems

TS Manufacturing has designed and built many gallery & open truss conveyor systems. With installations up to 3000' long, we have the design and fabrication capacity to handle the largest of conveying projects.

Belt Conveying

Choose from troughed, flat slider, and tube conveyor designs with Custom Loading Zones, to ensure smooth transition of materials & prolonged belt life. Heavy-duty impact sections are custom engineered for your project. Options such as hoods, cleated belts and walkways can be easily added.

TS Manufacturing has been designing, manufacturing and installing quality bulk material handling systems for mining, aggregate, cement and many other industries – for over 40 years.

We have equipment on 6 continents.

We Manufacture:

- Belt Conveyors
- Link Conveyors
- Flexi-Wall Belts
