

## Partial Product List

### Truss Conveyors

Each conveyor is custom engineered and manufactured to suit your application. TS will engineer, detail and certify truss conveyor drawings to meet standards.

### Belt Conveying

Available in trough, flat slider, and tube conveyor designs. Adjustable skirting to ensure smooth transition of materials & prolong belt life. Impact sections are custom engineered to suit applications. Optional hoods keep elements out of materials, while keeping dust in.

### TS Vibrating Conveyors

Available in Heavy Duty and Medium Duty designs. Each conveyor is built with a TS Manufacturing designed, positive action, eccentric drive that minimizes the effect of load variations. TS vibrating conveyors are engineered and balanced to reduce the requirements of foundations and substructures.

### Gallery Conveying Systems

TS Manufacturing has designed and manufactured a variety of gallery conveying systems. With installations ranging from 40'-3000', TS Manufacturing has the capacity to handle even the largest of conveying requirements.

### In-House Engineering

TS Manufacturing utilizes the latest in Computer Assisted Design software, operated by experienced engineering staff, to ensure every piece of equipment exceeds expectations. Our Project Managers oversee everything from equipment consultation to the entire lifecycle of complete projects.

SOLUTIONS

# Bulk Material Handling Systems for the Mining Industry

TS Manufacturing has been designing, manufacturing and installing quality bulk material handling systems for mining, aggregate, quarry, cement and many other industries for nearly 40 years.

Our experienced engineering department utilizes the latest in CAD design software and is capable of working in 2D or 3D with nearly any file format. Our Project Managers have experience working directly with customers as well as working with Consulting Engineering firms. We have equipment installed on 6 continents.

We will design and manufacture the system and deliver it to your site, on time and on budget, anywhere in the world.

Our Systems Application Personnel are ready to quote on your application using our standard high quality components or work to your system and component specifications, to reduce your maintenance, inventory and operational costs.

## We Manufacture:

- Belt Conveyors
- Chain Conveyors
- Gallery Systems
- Ships Loaders
- Link Conveyors
- Radial Stackers
- Reclaim Systems
- Underground Conveyors
- Flexi-Wall Belts
- Tube Conveyors
- Belt Feeders
- Screw Conveyors
- Screw Dischargers
- Feeders
- Live Bottom Bins
- En-Masse Conveying
- Multi-Chain Conveyors
- Drag Chain Systems
- Chuting
- Loading Hoppers
- Head End Discharges
- Grizzlies
- Sub Structures
- Catwalks
- Handrails
- Safety Guarding
